

LASU WIRELESS INTERNET SERVICE (LASU WI-FI)

This is to bring to the attention of the University Community that in addition to the Local Area Network (LAN) currently being deployed by the LASU ICT Internet Service, Internet Enabled Laptops, PDAs and Mobile Phones can henceforth surf the internet through our new wireless service.

To use this facility, staff and students are required to connect to the LASU-Wireless. Users can log-on by clicking on the trial mode.

Note that this service is provided free of charge for the time being, while certain details are being worked out. Staff and students are hereby enjoined to avail themselves of this opportunity.

For further information, please call: **01-8547738** or visit the **ICT Centre of the University**. Staff and students can also send their enquiries to the Centre, through this e-mail address: ictsupport@lasunigeria.org.
