

UNIVERSITY MANAGEMENT CAUTIONS STUDENTS ON THE USE OF PIN CODES

The attention of the University Management has been drawn to the incessant complaints of students on cases of **loss, theft, mis-use** and or **mis-placement** of **Personal Identification Number (PIN)** codes.

In view of these complaints, the University Authority wishes to **re-emphasis that the PIN Code remains the only evidence of payment of school fees and the needed access that will allow students to process their on-line registration of courses.**

Students of Lagos State University are strongly advised to guard against the loss or mis-use of their pin codes as well as prevent unauthorized access to pin codes by other students other than the rightful owners.

They are also advised to painstakingly insert the correct matriculation number(s) during their on-line registration exercise.
